

A line graph showing a step function. The x-axis ranges from 0 to 1400 with major ticks every 200 units. The y-axis ranges from 0.00 to 0.06 with major ticks every 0.02 units. The function is 0.00 for x from 0 to 200, jumps to 0.06 at x=200, stays at 0.06 until x=1000, and then drops back to 0.00 for x from 1000 to 1400.

A line plot showing a step function. The x-axis ranges from 0 to 1400, and the y-axis ranges from 0.00 to 0.10. The function is 0.00 for x from 0 to 200, jumps to 0.10 at x=200, stays at 0.10 until x=1000, and then drops back to 0.00 for x from 1000 to 1400.

A line plot showing a step function. The x-axis ranges from 0 to 1400, and the y-axis ranges from 0.00 to 0.10. The function is 0.00 for x from 0 to 200, jumps to approximately 0.12 for x from 200 to 1000, and then drops back to 0.00 for x from 1000 to 1400.
